

LAXMAN SUNKARI

Hyderabad — laxmanshelby@gmail.com — +91 8897029525
Portfolio — GitHub

Career Objective

Aspiring Data Science and AI Engineer with strong interest in Machine Learning, Generative AI, Distributed Systems, and AI-powered applications. Interested in building intelligent systems, automation tools, and scalable software that solves real-world problems. Passionate about learning new technologies and applying them to practical real-world applications.

Education

B.Tech Data Science Vignan Bharathi Institute of Technology CGPA: 7.7	2023–2027
Intermediate – Narayana IIT Kenda Grade: 9.0	2021–2023
SSC – Vani Secondary School Grade: 9.8	2021

Projects

P2PRescueNet – AI Driven Disaster Communication App

Developed a decentralized disaster communication system using Flutter, Kotlin and Python to enable communication without internet connectivity during disaster situations. Built a Mobile Ad-Hoc Network using Wi-Fi Direct (P2P) and implemented a Reinforcement Learning (Q-Learning) routing algorithm for intelligent message routing between devices. Integrated TensorFlow Lite for on-device AI decision making and used AWS DynamoDB for SOS data storage and synchronization across devices.

Grace – Offline AI Voice Assistant

Built an offline voice assistant using Python, Ollama, LangChain and CrewAI capable of executing system commands, opening applications and performing automation tasks. Implemented wake word detection and offline speech recognition using Vosk. Integrated local LLMs for conversational AI and added system automation and command execution features for desktop control.

8D Audio Converter Web Application

Developed an audio converter web application using Python, PyDub and FFmpeg to convert songs into immersive 8D audio format. Built frontend using HTML, CSS and JavaScript and implemented audio processing, file upload and file handling on the backend. The application allows users to upload audio files and download converted 8D audio output.

Technologies

Languages: Java, Python, SQL, JavaScript, R
Web Development: HTML, CSS, React.js, Tailwind CSS
AI / Data Science: Machine Learning, Generative AI, LangChain, CrewAI
Mobile / Cloud: Flutter, Kotlin, TensorFlow Lite, AWS DynamoDB
Tools: Git, GitHub, Docker, VS Code, Vercel, Render

Certifications

- Oracle Data Science Professional
- Oracle DevOps Professional
- AWS Cloud Foundations And Architectures
- Tata GenAI Data Analytics
- Google Cloud Gen-AI Studio

Leadership & Interests

- Organized a cricket tournament with 100+ participants and managed scheduling, teams and event coordination.
- Interested in literature, philosophy and psychology; regularly read novels such as *Crime and Punishment*, *The Brothers Karamazov* by Fyodor Dostoevsky and *Misery* by Stephen King.
- Actively follow geopolitics, international relations and world history to understand global power structures and economic strategies.
